Despite the ruling of the Judges of Special Sessions in the sorough of Rich. mond yesterday, that it is no crime to. carry concealed weapons unless they are carried with criminal intent, Commissioner Bingham will not rescind his stringent orders concerning pisto; and knife carriers. The police will continue to arrest any person found carrying a

REAL ESTATE FOR SALE-LONG ISLAND.

The Great Annual Parade of the Suburban Real Estate Operators with their agents and sub-agents is in action. The procession of 5,000 men are carrying banners of their respective territories, and buglers head each delegation to make known what they stand for and what they have got. Every one says to buy of them means wealth; to go elsewhere means loss and ruin. We find only a few hammer throwers, men and corporations new in the field, who find their names and expressions in the daily newspapers every week. They are archangels in their own little circle, and in order to make good to the directors and co-operators they must hammer the average suburban operator and try to stop the flow of money from the wage-earners into the channels of older institutions. Even Judges of Court, Real Estate Exchanges and Railroad Corporations are condemning illegitimate practices on Long Island by unscrupulous operators, misleading and deceiving the public.

Men and Corporations Do Not Acquire Fame by Unjust Criticism.

We are the oldest operators and the pioneer suburban operators on Long Island, and during our seventeen years' business experience wa fail to discover during that period any real estate company deserving of the condemnation thus recorded by those people in the past six months. Long Island Operators and Real Estate Agents are all honest, industrious and more enterprising

than any community in the United States. Every man and woman who has a dollar to invest or a desire to secure a place for a home is absolutely safe in the hands of the Long Island Real Estate man.

The Father of the Long Island suburban business, the creator of the Brass Bands, Free Luncheon, Free Rides, the man who made Brooklyn Suburbs, who developed Flatbush and brought hundreds of thousands of homegetters to Brooklyn and millions of capital for business, was Jere Johnson, Jr. Where can you find a man or woman in all Greater New York who could stand up and point to one discreditable incident or action against

his name, which stands immortal in the pages of the suburban history of Long Island? There are hundreds of thousands on Long Island who are obligated to him for their homes, for his generosity, for his industry and for

There is no city in the old world, there is no city in the new world, having a population of 500,000 or more which has such a land value on its lots and plots in the suburbs as there is on Long Island, suburban to New York. THIS IS.A FACT. WE CAN PROVE IT. WE HAVE INVESTIGATED IT.

One of the most delightful spots to be found in the suburbs of Greater New York. A place on the south shore of Long Island which rests on the Great South Bay, and an industrious community of nearly 6,000 people, where every man and woman is busily engaged and making money in their various channels of busifiess; where you find many beautiful country estates of men of wealth, who live there eight months of the year. For schools, churches, stores, beautiful driveways and roadways, fresh water, lakes and tiny streams winding to the Bay, cannot be surpassed anywhere on the continent of America.
